DETAILED ACTION

1. The request filed on June 23, 2008 for a request for continued examination (RCE) under 37 CFR 1.114 based on patent application 10/715,346 is acceptable and an RCE has been established. Each independent claim 1, 22 and 23 has been amended. Claim 12 is previously canceled, thus claims 1-11 and 13-23 are pending/examined.

Priority

2. This application does not claim priority of any application. Therefore, the effective filing date for the subject matter defined in the pending claims of this application is **November 18, 2003**.

Allowable Subject Matter

3. **Claims 1-11 and 13-23** are allowed.
4. The following is an examiner's statement of reasons for allowance:

All independent claims **1, 22 and 23** are amended.

Before the independent claims were amended, each and every limitation of the claim was disclosed by the reference on the record.

Campbell does not explicitly disclose:

Performing virus detection at a destination host to which the first packet is addressed, and determining the source of an attack based on a sender information copied from a received first packet.

However, in the same field of endeavor, **Boulanger, the secondary reference on the record**, discloses performing virus detection at a

destination host to which the first packet is addressed, and determining the source of an attack based on a sender information copied from a received first packet. *[See paragraph 0030-0031, 0011-0012 and Fig. 11, 0035, for instance how the intrusion detection program could be installed at the victim location]*

However each independent claims 1, 22, and 23, has been amended to distinctively indicate that information from the recited "first packet" is copied "based at least in part on a determination that the first packet **comprises an open packet**" and that the "second packet" is passed through without the recited information being copied from the second packet "**based at least in part on a determination that the second packet does not comprise an open packet.**"

For the reasons provided above, the independent claims **1, 22, and 23**, are found to be novel and are allowed.

The claim amendment made is verified to have support in the specification. See at least page 4, lines 12-20.

5. The dependent claims which are dependent on the independent claims 1, 22, and 23 being further limiting to the independent claims, definite and enabled by the specification are also allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance."
